ADVERTISEMENTS

We, the Senior Class of 1962, dedicate the Aurora to the late Dr. Roe H. Strickland, Superintendent, teacher, and friend, under whose leadership and guidance we were fortunate enough to receive our secondary training.

We hope this dedication conveys our appreciation for his devotion and service to our school and community.

Our memories of this past year will never be forgotten in this La Aurora. When we glance back through this yearbook, perhaps ten years from now, we will relive those ideas of our youth.

The dances, the championship basketball games, the homework, the tests, and the hard-working teachers. But the thing that we will miss and remember most of all is the warm companionship that can be experienced only in high school.

The first annual ever to be published by the students of Calexico Union High School describes the laying of the corner stone of the new high school building on February 22, 1915. "There was a parade consisting of the U.S. Cavalry stationed here, citizens in decorated automobiles, the grammar school and their teachers, the high school students, by classes led by their class teachers and carrying their class pennants, the members of fraternal orders and other citizens. They marched through the streets of the city to the High School grounds, where, with speeches and music, the corner stone was laid."

The Class of 1916 had nine graduating seniors, and the Class of 1961, one hundred and seventeen seniors. It is estimated that eight hundred and eighty students will be attending Calexico Union High School in 1967. Additional buildings are a necessity.

We trust that a re-enactment of the corner stone laying will be possible in the near future.

Congratulations . . .
CLASS OF '62

Looking ahead in life . . . the lessons of Imperial Valley pioneers can serve as a constant reminder of what can be accomplished when free people work toward definite objectives under our free enterprise system . . .

This area has been changed from a desert wasteland to an agricultural empire producing the seventh largest income in the United States . . . in just 60 years.

Every year many visitors from countries of the free world come to Imperial Valley to study our farming methods and to see our vast network of canals and drains. Many of the methods used here will be applied in similar areas.

We are proud of the part our trained District personnel have played in this outstanding development . . . we too are looking to the future, keeping abreast of developments to even further improve our power and water systems . . .

Ese Vic,

Remember our little adventures across the cannal, and the time we were surrounded by dogs, trucks, and the county? I'll be looking forward to a continuation of our adventures next year (ay-si)

Your ditchin buddy

Victor

Ese Victor!

Well, I didn't get you in any classes this year (sob sob! aye si!) May be I will next year.

We all (our gang) will never forget the night we collected rummage with you and Carlos, the way you dressed up.

You're a real neat dancer, hope I dance with you someday.

Love ya (as a friend of course)

Victor,

I was home enjoyed having you in P.K, even though I didn't get a chance to teach you to dive, oh well maybe next year. Last night I had a blast. The first time that I've danced rock'n roll at a gypsy dance, if you dance well next year, you'll have to expect my crazy steps. Well Victor I'll be an old man next year a junior you will still be a year behind me. I hope that next year we can have some dance with you. Be good.

God Bless you

Mary Louise de la Fuente
